CULTURE

WALK THE WORLD!

Have you ever walked for a whole day? Or a week? What about a whole year? Did you know that there are long-distance paths all around the world that are thousands of kilometres long? The Appalachian Trail, in the USA, is over 3,500 kilometres long! Can you imagine how long it takes to walk that path?

→ The South West Coast Path (UK)

This path runs for 1,014 kilometres around the south-west coast of the UK, so you are never far away from cliffs and the ocean. Most people walk it in small sections, but if you've got a few months, you can walk the whole path!

→ Wadi Shab (Oman)

This path is much shorter – you can do it in half a day! But if you walk to Wadi Shab, you can see the beautiful blue of the water and even swim there. It is not an easy walk, but it ends at an amazing cave. You can even swim through the cave to a waterfall!

→ The Toubkal Summit Path (Morocco)

This path is only 28 kilometres long, but it is not easy! It takes two days and takes you to the top of Mount Toubkal. This is North Africa's highest mountain, at more than 4,100 metres. If you like mountains, this is the path for you! The views from the top are spectacular!
